

**Tufts Medical Center
Boston, Massachusetts
Radiation Safety Specialist**

Tufts Medical Center is a world-class, academic medical center that is home to both a full-service hospital for adults and the Floating Hospital for Children, a state-of-the-art, full-service pediatric hospital. Tufts Medical Center and the Floating Hospital for Children staff train future physicians in the most advanced medical science technologies and continually break new ground with ongoing and innovative research.

Our hospital currently has an opening for a ***Radiation Safety Specialist*** in the Health Physics Department. This position will support the staff-level of the Radiation Safety Program (Clinical & Research). Primary duties will include training, compliance audits, emergency response, patient therapy support, waste management, dosimetry program, etc. Acts to maintain compliance with state/federal laws (105 CMR 120 & DOT) and license conditions, working knowledge of these laws required, provides guidance to radiation safety technicians, and supports outside contracts. The ideal candidate should have Level B Hazmat training and up-to-date DOT training and 2+ years in a medical/research radiation safety program with a Bachelor's Degree, but would consider an Associate's Degree with 5+ years of related experience.

Interested candidates should visit our careers website at:
www.tuftsmedicalcenter.org/careers and submit an online application.

Tufts Medical Center is an affirmative action/equal opportunity employer. To support our diverse patient population, bilingual candidates are encouraged to apply. We offer a competitive salary and benefit package and unlimited professional growth opportunities.
