

Deputy Radiation Safety Officer – 3+ years experience

Georgetown University Hospital

Washington, DC

With a 609-licensed-bed hospital and 1,100 physicians, Georgetown University Hospital's clinical services represent one of the largest healthcare delivery networks in the area. We offer some of the most sophisticated treatments and technologies available, as well as the expertise of nationally respected physicians. Our doctors have been named in the *Washingtonian* "Top Doctors" for 2008 and also *Northern Virginia Magazine's* "2007-2008 Best Doctors."

What you'll be doing:

In this role, you will ensure the Radiation Safety Program provisions are implemented in accordance with all federal and state regulations and the organization's mission, vision, policies and procedures.

Requirements:

- Master's degree in Health Physics, Physics, Nuclear Engineering or a directly related discipline.
- Certification by the American Board of Health Physics, American Board of Radiology or equivalent required, or licensure by a federal or District of Columbia agency to perform radiological safety assessments is preferred.
- 3-5 years progressively more responsible positions in the management of radiation safety operations with radioactive materials, including waste management in the clinical setting.
- Detailed knowledge of current and proposed regulations, including Title 10 of the Code of Federal Regulations (10 CFR); Title 40 of the Code of Federal Regulations (40 CFR); Title 49 of the Code of Federal Regulations; and District of Columbia Regulatory Agency (DCRA).
